CHICKPEACE

Why conduct a waste audit?

1. Save money

- Waste is often wasted money
- An audit shows you where you can cut costs by reducing, reusing, or recycling.

3. Meet regulations & compliance

- Many regions have rules around proper disposal

4. Strengthen sustainability goals

- Reducing waste shows real progress toward environmental commitments.

5. Boost brand reputation

- Customers increasingly support businesses that are transparent about their impact.
- Showing you've audited and improved waste practices builds trust and loyalty.

6. Engage employees 🙌

- Involving staff in the audit raises awareness and empowers them
